

Colyton Grammar School

THE POPPY PROJECT

Jan 2017 – Nov 2018

Wet felt poppy workshop – March 2017

All students and staff are invited to work towards a **poppy installation for autumn term 2018.**

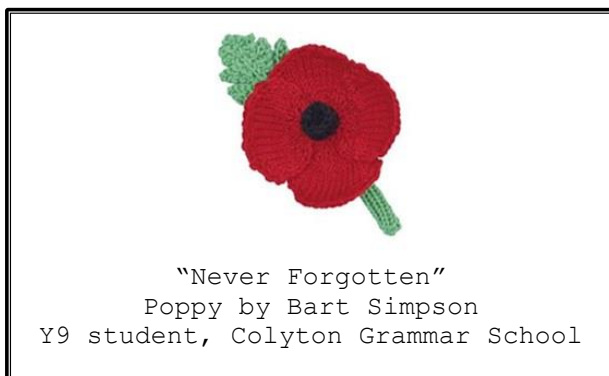

We would like you to make a poppy from a material of your own choosing – metal, wire, wool, felt, plastic, fabric etc.

A regular group will be meeting on Thursday lunchtimes to help with poppy manufacturing, and periodic workshops will be announced.

Each poppy will be personalised with your name and brief message – see example below.

Several larger poppies will be made to represent the old-Colytonian servicemen on the school's war memorial.

We hope to put the poppy installation on display in local churches, halls and primary schools, before returning it to the school library for remembrance week in November.

Poppy size template, knitting and crochet patterns & needles, and some materials can be provided - see Mrs Burns-Price in the library. Donations of materials also welcomed.
